

KLAUS F. HEMPFLING KFH DVD LEARNING BOX IN PREPARATION

Horses - how to approach,
lead and lunge them.
Including an introduction
to the KFH Natural Weight
Signal Riding System.

7 DVD's in total

This Compact Learning Box will
contain 7 dvd's with step by step
explanations of the principle themes
of the KFH First Encounter
with the horses, the way of his
powerful, gentle leading and
the Art of Lunging.

Continuous horse training
exclusively documented

To produce this DVD Box we
have not just been watching and
editing many hours of filmmaterial
that has never been published
before. Klaus has also been working over
longer time with some mares and stallions
in order to document their progress in
small steps.

The most detailed and complete teaching information Klaus ever published

For this production it was very important not to miss one single step in the progress of the horses - so it became the most detailed and complete teaching information Klaus ever produced. Certainly, this will not replace the effect of seeing and experiencing Klaus live with horses at a demonstration or in a course, but together with these options and his books, this DVD Learning Box is the best foundation for sharing Klaus' wisdom in the most effective way.

About this picture:

This picture shows Klaus with the lusitano stallion Xingu which arrived at the school-farm in March 2008 as uncontrollable (see also YouTube clip Borderline March 2008). Also this horse stayed some time with Klaus to document the progress of this now soft giant. All these steps also can be found in the KFH DVD Learning Box.
